5. FIRE-FIGHTING MEASURES

Specific hazards: Non-flammable material under ADG code

Special protective precautions and equipment: Not combustible, however following evaporation of aqueous component residual material can burn if ignited. On burning may emit toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion.

Suitable extinguishing media: Not combustible, however, if material is involved in a fire use water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder).

Hazchem Code: Not applicable

6. ACCIDENTAL RELEASE MEASURES

Small Spills: Wear protective equipment to prevent skin and eye contamination. Wipe up with absorbent (clean rag or paper towels). Collect and seal in properly labelled containers or drums for disposal.

Large spills: Avoid accidents, clean up immediately. Wear protective equipment to prevent skin and eye contamination and the inhalation of vapours. Work up wind or increase ventilation. Contain - prevent run off into drains and waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers or drums for disposal. If contamination of sewers or waterways has occurred advise local emergency services and dilute with plenty of water.

7. HANDLING AND STORAGE

Handling Precautions: Wear protective goggles, face shield, rubber gloves and protective clothing to prevent skin and eye contamination. Ensure a high level of personal hygiene is maintained when using this product. Always wash hands before eating, drinking, smoking or using the toilet.

Precautions for Storage: Keep in cool, dry storage area. Keep containers closed when not in use. Only store material in original container, do not store with dangerous when wet substances (class 4.3), oxidising agents (class 5), cyanides (class 6), strong acids (class 8) or foodstuffs.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: None established for this product

Personal Protective Equipment:

Avoid contact with the skin and eyes, and avoid breathing vapours or mists. When exposure is likely, personal protective equipment in a combination appropriate to the degree and nature of exposure, should be selected from the following list:-

- (1) Eye protection
- (2) Neoprene, butyl rubber gloves
- (3) Leather boots

CONTAMINATION

If contamination occurs, change clothing taking care to avoid skin contact with the contaminated area, and discard internally contaminated gloves and footwear. Launder contaminated clothing before reuse. Observe good personal hygiene. Eye wash fountains and safety showers should be available for emergency use.

Engineering Controls: Special ventilation is not normally required due to the low volatility of the product at normal temperatures. However, in the operation of certain equipment or at elevated temperatures, mists or vapour may be generated and exhaust ventilation should be provided to maintain airborne concentration levels as low as is reasonably practicable.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Blue coloured clear liquid
Odour:	Slight odour
Melting Point:	Not applicable
Boiling Point:	100°C
Solubility in Water:	100% soluble
Specific Gravity (H₂O=1):	0.95 – 1.00 kg/l
Vapour Pressure:	Similar to water
Viscosity:	Not applicable
Volatiles:	88% +/-1%
pH as supplied:	Not applicable

10. STABILITY AND REACTIVITY

Stability: This material is thermally stable when stored and used as directed.

Conditions to avoid: Do not store with oxidising agents (class 5)

Incompatible Materials: Not to be loaded or stored with dangerous when wet substances (class 4.3), oxidising agents (class 5), cyanides (class 6), strong acids (class 8), cationic detergents or foodstuffs..

Hazardous decomposition products: Upon combustion of product will result in Carbon Monoxide and Carbon Dioxide.

Hazardous reactions: Hazardous reactions may occur with dangerous when wet substances (class 4.3) and oxidising agents (class 5)

11. TOXICOLOGICAL INFORMATION

Ingestion: May cause abdominal pain, nausea, vomiting, and gastrointestinal tract irritation if **large amounts** are ingested.

Eye: May irritate, causing pain, redness and tearing

Skin: Mild irritation may occur. Frequent or prolonged contact may cause dermatitis in some individuals.

Inhalation: At ambient temperatures, a low irritation hazard
If heated or sprayed in a confined space product may cause irritation to the respiratory tract causing coughing, sneezing, nasal discharge, headache, hoarseness and nose and throat pain.

Reproductive Effects: None known.
Does not contain chemicals implicated in adverse reproductive effects.

Other Information: None established

12. ECOLOGICAL INFORMATION

Information on Ecological Effects: Avoid contaminating waterways.

Ecotoxicity: Low

Persistence and degradability: Surfactants used are classified as "readily biodegradable" with AS4351.

Mobility: No information available.

13. DISPOSAL CONSIDERATIONS

Refer to appropriate authority in your State. Empty containers must be decontaminated. Dispose of material through a licensed waste contractor. Suitable for disposal by approved waste disposal agent.

14. TRANSPORT INFORMATION

UN Number: Not applicable
Proper Shipping Name: Not applicable
Dangerous Goods Class: Not applicable
Class and subsidiary risk: Not applicable
Packing Group: Not applicable
Hazchem Code: Not applicable

15. REGULATORY INFORMATION

Poison Schedule: 5
OHS: Not considered a Hazard
Environmental: Not considered a Hazard
